

Vietnam:

Dear Madam / Sir,

I thank the Vietnamese government for making a commitment to close bear farms in stages and for signing an agreement with Animals Asia to rescue 200 bears from bear farms in Hanoi. I'm asking you to continue to promote other methods of treatment and to promote the herbal alternatives to bear bile used in traditional medicine.

The building of a sanctuary near Tam Dao is also a significant step in addressing the issue of bear farming in Vietnam.

I hope you will continue down the path of ending bear farming in Vietnam We hope you will make good on your commitment to end bear farming in Vietnam as soon as possible and free every farmed bear.
